PROFESSIONAL SUMMARY

Governance, Risk & Compliance (GRC) Analyst with a strong background in cybersecurity and technical training. Experienced in SIEM monitoring, vulnerability management, and ISO/NIST compliance implementation. Skilled in bridging the gap between technical cybersecurity operations and organisational learning to deliver actionable risk insights and effective security awareness. Proven track record of designing global training programs and supporting audit readiness, eager to apply GRC and instructional design expertise to support enterprise risk management.

KEY SKILLS

- **GRC & Cybersecurity:** SIEM Monitoring, Vulnerability Assessment, Risk Mapping, Incident Response, Threat Simulation.
- **Compliance Frameworks:** ISO 27001, ISO 27701, ISO 42001 Implementation, NIST CSF, Regulatory Compliance.
- **Training & Enablement:** Instructional Design, AI-Powered Content Development, LMS Administration, Technical & Sales Enablement, Learning Analytics.
- **Technical Operations:** Network Troubleshooting, Firewall Configuration, Cloud/SaaS Platforms, Ticketing Systems.
- **Core Professional:** Stakeholder Engagement, Executive Reporting, Policy Development, Change Enablement, Needs Analysis.

WORK EXPERIENCE

GRC Risk Analyst | International Cybersecurity and Digital Forensics Academy (ICDFA) | June 2025 – Present

- Applied Operational Risk Management Framework (ORMF) elements, maintaining enterprise risk registers and mitigation plans.
- Supported SIEM monitoring, NIST/ISO control mapping, and compliance documentation for audit readiness, directly supporting risk data quality and policy accessibility.
- Developed incident reports and executive dashboards, translating technical vulnerabilities into business risk insights to support consistent and timely risk reporting.

- Drafted Acceptable Use Policies (AUPs) and other governance documentation, ensuring policies and procedures are practical and accessible.

Technical Trainer | Mimecast South Africa (Pty) Ltd | January 2021 – May 2025

- Designed and delivered global SaaS, cloud, and cybersecurity training programs using blended learning solutions with Articulate 360, Rise, and Captivate.
- Led cybersecurity awareness, phishing, and compliance training initiatives, building scenario-based labs and hands-on technical simulations.
- Created AI-personalised learning paths and immersive modules, improving customer time-to-competency through structured onboarding.
- Managed LMS reporting, session logistics, and stakeholder communication, driving microlearning strategies to improve security behaviour outcomes.

Technical Trainer | Merchants SA | May 2016 – December 2020

- Conducted training needs analysis for technical and operational teams, designing learning materials for Cisco and Microsoft Office 365.
- Delivered instructor-led technical and sales training programs, developing troubleshooting guides, assessments, and moderation tools.
- Supported senior stakeholders with workshops and contributed to safety documentation including Workplace Skills Plans (WSPs) and Annual Training Reports (ATRs).
- Analysed training effectiveness to recommend continuous improvements and maintained accurate training records and compliance documentation.

Platinum Support Engineer | Ignite | January 2015 – April 2016

- Provided remote network management using PuTTY and CLI tools, configuring routers, firewalls, and access control lists.
- Performed first-line and second-line technical troubleshooting for ADSL connectivity and network performance issues.
- Liaised with carriers and field engineers for fault resolution, capturing detailed incident data for escalation processes.

Technical Support Engineer | MWEB Business | May 2010 – December 2014

- Provided first-time resolution for business client technical queries involving ADSL, MPLS, and dedicated network links.
- Supported hosting, co-located, and virtual server environments, maintaining and troubleshooting MySQL and Microsoft servers.
- Logged and tracked incidents through ticketing systems, ensuring SLA adherence and documenting solutions for knowledge base updates.

EDUCATION

- **Diploma:** IT Programming I [Insert Institution Name Here]
- **National Certificate & Diploma:** Occupationally Directed Education, Training & Development Practices I [Insert Institution Name Here]

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- **ISO Standards:** ISO 27701 Lead Implementer, ISO 42001 Lead Implementer, ISO/IEC 27001 Lead Auditor.
- **GRC & Cybersecurity:** Governance, Risk & Compliance (GRC) – In Progress.
- **Training & Development:** Certified AI-Powered Instructional Design Professional, Instructional Design: Foundations & Applications.
- **Technical:** Mimecast Product Certifications – All Levels, AWS Educate: Machine Learning Foundations, Cisco: Introduction to Cybersecurity, Microsoft Certified IT Professional.
- **Additional Courses:** Hands-on AI Masterclass (Foundation, Proficiency, Mastery).
