

SHIRIZANE MAGADLA

Technical Trainer | Learning Architect | Product learning specialist

Clayville, Olifantsfontein | 071 3540 712

shirizane.magadla@gmail.com

Professional Summary:

Highly accomplished technical trainer with over 9 years of experience in designing, delivering, and scaling innovative learning solutions that drive business growth and capability development. Proven expertise in transforming complex technical concepts into engaging, immersive learning experiences that inspire action and drive adoption. With a strong background in instructional design, AI-enhanced content creation, and next-gen training platforms, I excel in empowering global audiences across technical, cybersecurity, cloud, and SaaS ecosystems.

Core Competencies:

- **Technical & Sales Training:** Multi-sector technical training (virtual & onsite), sales training in contact centre environments, cybersecurity & SaaS/cloud product enablement
- **Learning Design & Delivery:** Instructional design, learning architecture, onboarding & upskilling programs, micro-learning, scenario-based learning, ILT, VILT, eLearning, VR/AR
- **AI & Digital Content Development:** AI-powered content creation (ChatGPT, Synthesia, platforms like Articulate 360, Rise, Captivate, Camtasia, Vyond)
- **Learning Strategy & Analytics:** Learning needs analysis (LNA), skills gap mapping, data-driven analytics, program evaluation, enterprise learning rollouts
- **LMS & Platforms Expertise:** LMS admin (Workday, Docebo, TalentLMS), integrations & automation (Zapier, HubSpot Learning Hub)
- **Tech Platforms:** Virtual delivery tools (Zoom, Teams, Webex, Google Meet, Class), cloud platforms (AWS, Azure, GCP)
- **Stakeholder & Change Enablement:** Stakeholder engagement, change communication & management, DEI training initiatives
- **Team Enablement & Coaching:** Cross-functional training (IT, Sales, Customer Success), coaching & mentoring programs, cybersecurity awareness & risk-based education

Qualifications & Professional Development:

- Diploma IT Programming
- Microsoft Certified IT Professional
- Microsoft Certified: Security, Compliance, and Identity Fundamentals
- Mimecast Product Certifications – All Levels
- National Certificate & Diploma Occupationally Directed Education, Training and Development Practices
- Cisco: Introduction to Cyber Security
- Instructional Design Foundations and Applications
- AWS Educate Machine Learning Foundations
- Certified AI-Powered Instructional Design Professional
- Hands-on AI Masterclass 1(foundation) 2 (Proficiency) 3(Mastery)
- Governance, Risk, and Compliance (GRC) - Candidate

Technical Tools & Platforms Proficiency

- LMS: Workday Learning, SAP SuccessFactors, Moodle, Docebo, TalentLMS
- Content Development: Articulate 360, Rise, Storyline, Adobe Captivate, Vyond, Camtasia
- Virtual Classrooms: Zoom, MS Teams, Webex, Class, Google Meet
- Video/AI Tools: Synthesia , Canva for Education, AI Transcription Tools (Otter.ai, Descript)
- Analytics: Google Analytics for Learning, Power BI, LMS Analytics Dashboards
- Digital Adoption Platforms: WalkMe, Whatfix
- VR/AR Platforms: Oculus Quest for Business Learning Simulations
- Project Management: Jira, Trello, Monday.com
- Cloud Knowledge: AWS, Azure, GCP Fundamentals

Professional Experience:

Technical Trainer

Mimecast South Africa Pty Ltd, Jan 2021– May 2025

Experienced Technical Trainer with a strong track record of designing, delivering, and maintaining end-to-end training programs using industry-standard authoring tools such as Articulate 360, Rise, Adobe Captivate, and Vyond. Skilled in creating engaging, scalable

learning experiences across instructor-led, virtual, and asynchronous formats, tailored to diverse technical and non-technical audiences.

Achievements

- Delivered 200+ SaaS, cloud, and cybersecurity training sessions across EMEA with 95%+ satisfaction.
- Designed onboarding, blended, and asynchronous programs using Articulate, Captivate, and Vyond.
- Created AI-personalized learning paths and VR modules, boosting engagement by 40% and reducing incidents by 30%.
- Led AT, data automation, and compliance training; launched micro-learning to improve phishing scores by 60%.
- Built scenario-based labs, self-paced content, and mentoring networks, increasing certification by 55%.
- Conducted global train-the-trainer programs, expanding training reach by 80%.
- Improved customer time-to-competency by 35% and training attendance by 70% across EMEA.
- Achieved 100% compliance for mandatory onboarding programs in the EMEA region.
- Managed session logistics, stakeholder delivery, and reporting
- Delivered high-impact awareness training, increasing employee preparedness against phishing attacks from 20% to 95% for a major banking institution, significantly enhancing organizational security and resilience.

TECHNICAL TRAINER

Merchants SA | May 2016 - Dec 2020

Technical Training

- Conducted comprehensive needs analysis to inform the design of technical training materials, resulting in targeted and effective learning solutions for Cisco and Microsoft Office 365.
- Delivered high-quality training sessions on technical topics, leveraging strong instructional design principles to engage participants and drive knowledge retention.
- Developed practical support materials, including troubleshooting sheets, assessment packs, and moderation tools, to facilitate learning and ensure consistent application of technical skills.
- Provided expert support to senior stakeholders, facilitating learning workshops and contributing to the development of updated safety documentation, including Work Safety Plans (WSP) and Activity Task Records (ATR).

- Analyzed training effectiveness, gathered participant feedback, and made data-driven recommendations to improve future training initiatives and drive continuous improvement.
- Maintained accurate records of training sessions and participant feedback, ensuring transparency and accountability in training delivery and evaluation.
- Maintained and updated training documentation by organizational standards and client specifications.
- Collaborated closely with SMEs, consultants, and PMs to gather technical inputs, create accurate learning assets, and facilitate seamless training transitions.
- Supported ongoing training needs across internal teams and external client engagements, ensuring alignment with operational goals.
- Designed and delivered sales training workshops tailored for contact centre teams, resulting in improved upselling skills and enhanced customer engagement metrics.

PLATINUM SUPPORT ENGINEER

IGNITE! Jan 2015 - Apr 2016

- Remote management of the client's networks using Putty
- (Doing port forwarding, configuring Access-List, changing interfaces, setting up email accounts)
- Liaise with carriers, engineers, and customers to provide information for fault diagnosis and resolution
- Covering first-line troubleshooting
- Ensuring sufficient detail is captured for handover to 2nd Tier support
- Assisting the client with their ADSL connections.
- Facilitate the installation and repair of the Modems or Routers.
- Configuring Cisco routers and troubleshooting them.
- Troubleshooting firewalls (Astaro, Pix, MiG, and Percol8)

TECHNICAL SUPPORT ENGINEER

Mweb Business I May 2010 - Dec 2014

- Troubleshooting clients' requests and offering first-time resolution of queries
- Troubleshooting ADSL, MPLS, and Dedicated links
- Hosting Services (Website / Co-Located & Virtual
- Servers / Database MySQL & Microsoft / Domains
- Troubleshooting mail solution (Hosted Exchange, Mail Marshal)
- Domain mailboxes (PoP3, SMTP & IMAP)
