Career Objective

Results-driven Technical Trainer with a proven track record in designing and delivering engaging cybersecurity SaaS and cloud training programs. Expertise in stakeholder engagement and continuous improvement supports enhanced user readiness and certification rates.

Experience

TECHNICAL TRAINER

01/2021 - 05/2025

Mimecast South Africa (Pty) Ltd

South Africa

- Assisted in designing and delivering cybersecurity SaaS and cloud training programmes for various audiences across EMEA region.
- Supported onboarding compliance and phishing awareness initiatives, contributing to improved user readiness and certification rates.
- Aided in developing blended learning strategies that combined face-to-face, hybrid, and virtual delivery methods to enhance engagement.
- Collaborated with internal teams to ensure alignment and support for learning initiatives.
- Produced reports on programme participation and learning outcomes, offering insights for continued growth.
- Collected learner feedback to assess effectiveness and inform programme improvements.

TECHNICAL TRAINER

05/2016 - 12/2020

Merchants SA

- Achieved effective training needs analysis for technical and operational teams.
- Produced engaging learning materials for Cisco and Microsoft Office 365.
- Facilitated high-impact instructor-led technical and sales training programmes.
- Created comprehensive troubleshooting guides, assessments, and moderation tools.
- Enabled senior stakeholders to conduct successful workshops and learning sessions.
- Contributed to critical safety documentation, including WSPs and ATRs.
- Enhanced training effectiveness through thorough analysis and recommendations.
- Ensured accurate training records and compliance documentation were maintained.
- Collaborated with SMEs and project teams to guarantee content accuracy.
- Streamlined standardised training documentation for ease of access and use.
- Supported client learning initiatives with tailored internal and external programmes.
- Delivered effective sales enablement workshops for contact centre teams.

PLATINUM SUPPORT ENGINEER

01/2015 - 04/2016

Ignite

- Facilitated remote network management using PuTTY and CLI tools.
- Configured routers, firewalls, and access control lists.
- Provided first-line and second-line technical troubleshooting support.
- Assisted with ADSL connectivity and network performance issues.
- Supported modem and router installations and repairs.
- Configured Cisco routers and network interfaces.
- Troubleshoot enterprise firewalls and security appliances.
- Liaised with carriers and field engineers for fault resolution.
- Captured detailed incident data for escalation processes.
- Supported email and port forwarding configurations.
- Ensured accurate handover to Tier 2 support teams.
- Maintained customer communication during outages and incidents.

TECHNICAL SUPPORT ENGINEER

05/2010 - 12/2014

MWEB Business

- Assist business clients with technical queries for first-time resolution.
- Troubleshoot ADSL, MPLS, and dedicated network links for optimal performance.
- Support hosting for co-located and virtual server environments.
- Maintain and resolve issues in MySQL and Microsoft servers.
- Provide assistance with domain DNS and email services.
- Troubleshoot hosted Exchange and MailMarshal solutions effectively.

- Resolve POP3, SMTP, and IMAP mailbox issues efficiently.
- Log and track incidents using ticketing systems.
- Escalate complex issues to senior technical teams as necessary.
- Ensure adherence to SLAs and enhance customer satisfaction.
- Document solutions for knowledge base updates comprehensively.
- Support enterprise connectivity and infrastructure services effectively.
