

SIBULELE MAGADLA

Johannesburg, Gauteng 1666 | +27 76465 1250 | Sibulele.Magadla@gmail.com

SUMMARY

Results-driven network and security engineer with over 15 years of experience in firewall management, strategic thinking, and risk assessment. Proven track record of enhancing network infrastructures while ensuring robust security measures and minimal downtime for clients. Expertise in implementing effective solutions that support organizational goals and improve overall network performance.

EXPERIENCE

08/2024 to Current	Network and Security Engineer Irdeeto - Assist in managing broadcast networking and security services, including routers, switches, and firewalls. - Support design and implementation of network and security infrastructure. - Conduct security risk assessments and help develop mitigation plans. - Aid in management of projects aimed at enhancing network and security services. - Provide ongoing support and monitor systems proactively to reduce downtime. - Facilitate cooperation with clients and cross-functional teams for effective issue resolution. - Support root-cause analysis and contribute to strategies for system improvements. - Participate in 24/7 on-call rotation for prompt incident resolution. - Assist in conducting risk assessments and developing mitigation plans. - Aid in policy development.
08/2021 to 03/2024	Network Security Specialist Three6Five (contracted to Vodacom) - Assisted clients with firewall support and contributed to solution development on firewalls. - Supported configuration of SSL VPN and IPSec VPN solutions, integrating with Active Directory for UTM features of firewalls. - Helped implement policies and NAT configurations on Fortinet firewalls, including VDOMs and inter-VDOM routing. - Troubleshoot connectivity issues from a security perspective on firewalls. - Managed the addition and removal of VPN users on Juniper firewalls. - Provided troubleshooting assistance for overall connectivity on MPLS to external VLANs/DMZ. - Configured and implemented F5 BIG-IP LTM load balancers. - Supported and troubleshoot Meraki devices.
04/2021 to 08/2021	Network & Security Engineer BUI - Design, deploy and support- internal and external clients -Cisco switches, routers, nexus switches (Data Centre), Fortigate and Palo Alto firewalls. - Microsoft Azure deployment. - Network & Security Consultant - NETOPS
12/2016 to 03/2021	Network Security Specialist Three6Five (Contracted to Vodacom) Assisted clients with firewall support and configuration solutions.

- Provided SSL VPN and IPSec VPN solutions while integrating with Active Directory.
- Supported VDOMs and implemented inter-VDOM routing and policies on Fortinet firewalls.
- Troubleshoot firewall security profiles and connectivity issues.
- Managed user accounts for VPN access on Juniper firewalls.
- Resolved connectivity issues on MPLS to external VLAN/DMZ.
- Configured F5 BIG-IP LTM load balancers.
- Troubleshoot Meraki (SD-WAN) issues.

01/2016 to 11/2016

Network Engineer L2

Dimension Data (Contracted to SARB)

- Supported bank's LAN/WAN infrastructure with routers and 6500 switches, 4500 with VSS, 3750s, 3760s, and 2900 switches.
- Assisted in managing Blade Centre switches, including iFlex IBM and Nexus Blade Centre switches.
- Facilitated full redundancy with port aggregation for enhanced network stability.
- Contributed to voice infrastructure setup and conference facilities using Starfish equipment.
- Coordinated WebEx conferences and managed wireless LAN controllers.
- Maintained laps and security infrastructure with Checkpoint firewalls.
- Executed cabling tasks with Ethernet and fibre cables.

05/2013 to 12/2015

Network Engineer

UCS-Solutions

- Provided technical support for troubleshooting LAN and WAN connections.
- Conducted failover testing to ensure proactive measures were in place.
- Assisted in configuring routers and switches, providing on-site support as needed.
- Served as a third-level support contact, escalating issues from second-line support.
- Managed 6500 switches in core data centre environment, adding VLANs and performing patching.
- Troubleshoot WLAN issues, configuring wireless access points as necessary.
- Facilitated cabling tasks for Ethernet and fibre, replacing media converters for fibre infrastructure.
- Executed emergency failover changes to meet operational requirements.
- Implemented firewall changes using Fortigate, troubleshooting security issues as they arose.

06/2012 to 04/2013

Troubleshooting Engineer

Internet Solutions

- Assisted in troubleshooting MPLS/VPN connectivity issues.
- Provided support for BGP troubleshooting efforts.
- Helped implement failover solutions for enhanced reliability.
- Supported routing for dedicated links.
- Aided in firewall troubleshooting for Fortigate and Cisco firewalls.

05/2010 to 05/2012

Technical Support Consultant

MWEB Business

- Assisted clients in resolving queries on first contact.
- Supported troubleshooting of ADSL, MPLS, and dedicated links.
- Facilitated hosting services including websites, co-located and virtual servers, MySQL and Microsoft databases, and domains.
- Helped troubleshoot mail solutions for hosted Exchange domain mailboxes.
- Monitored and tracked scheduled network maintenance activities.

- Logged faults with third-party vendors like Telkom and Neotel.
- Monitored client links 24/7 to maintain high uptime.
- Aided in troubleshooting and configuring firewalls.
- Provided troubleshooting support for Billion and Cisco routers and added configurations.

07/2008 to 12/2009

Technical Support

IBURST

- Troubleshot internet connectivity issues for clients.
- Assisted with software installation processes.
- Provided support for email setup and troubleshooting tasks.
- Configured routers to optimise performance.
- Guided clients through bandwidth purchases and basic service queries.

10/2007 to 07/2008

Call Centre Agent

CarPhone warehouse (talk-talk)

- Assisted customers with broadband troubleshooting.
- Supported users in setting up internet connections.
- Guided individuals through router problem resolutions.
- Helped resolve browsing and synchronisation issues.
- Executed MS-DOS commands including TCP/IP, ipconfig, and Winsock.
- Facilitated email account installations and configurations.

SKILLS

- Connectivity and firewall troubleshooting
- Switching technologies
- Palo Alto deployment
- F5 load balancer support
- Strategic thinking
- Analytical problem solving
- Cisco FTD and ASA
- Fortinet firewall expertise
- Check Point firewall management

CERTIFICATIONS

- CCNP Security
- Cisco ISE
- CCNP R&S
- CCNA DC
- CCNP R&S
- AWS Certified Cloud Practitioner
- AWS Solution Architect
- Fortigate NSE 4 & 7
- ITIL Foundation
- CCIE R&S (written)
- Palo Alto (PCNSA)

EDUCATION

2005

Diploma of Higher Education: Advanced Diploma in IT (Software Development)
ICESA - Durban
