SUMMARY

Dedicated Network and Security Engineer with proven skills in troubleshooting connectivity, firewalls, and switching. Committed to enhancing network infrastructure and security protocols to minimize downtime.

EXPERIENCE

08/2024 to Current

Network and Security Engineer

Irdeto

- Manage broadcast networking and security services (routers, switches, firewalls).
- Design, implement, and support network and security infrastructure; conduct security risk assessments, and drive mitigation plans.
- Manage projects to improve network, and security services.
- Provide ongoing support and proactive monitoring to minimise downtime.
- Interface with clients and cross-functional teams for seamless collaboration and issue resolution; drive root-cause analysis and implement strategies to improve existing systems; participate in 24/7 on-call rotation for fast incident resolution.
- Conduct risk assessments and mitigation plans.
- Firewall audit and policy development.

08/2021 to 03/2024

Network Security Specialist

Three6Five

- Assisted clients with firewall support and contributed to solution development on firewalls.
- Supported the implementation of SSL and IPSec VPN solutions, ensuring integration with Active Directory for UTM features of firewalls.
- Helped manage VDOMs, inter-VDOM routing, and policy implementation including NAT on Fortinet firewalls.
- Provided troubleshooting for security profiles and connectivity issues from a security standpoint on firewalls.
- Facilitated the addition and removal of VPN users on Juniper firewalls.
- Aided in troubleshooting overall connectivity on MPLS to external VLAN/DMZ.
- Contributed to the configuration and implementation of F5 BIG-IP LTM load balancers.
- Assisted in troubleshooting issues with Meraki (SD-WAN).

04/2021 to 08/2021

Network & Security Engineer

BUI

- Design, deploy and support- internal and external clients -Cisco switches, routers, nexus switches (Data Centre), Fortigate and Palo Alto firewalls.
- Microsoft Azure deployment.
- Network & Security Consultant - NETOPS

04/2021 to 08/2021

Network Engineer

UCS-Solutions

- Technical support, troubleshooting LAN and WAN.
- Conducting failover testing as part of being proactive.
- Configuring routers and switches and doing on site support.
- 3rd level support and acting as an escalation point for 2nd line.

- Working with 6500 switches in the core environment at the Data Centre, adding VLANs and doing patching at the data center.
- Troubleshooting WLAN, configuring wireless APs.
- Cabling (Ethernet and fibre), Swapping media convertor for fibre infrastructure.
- Emergency failover changes as per requirements.
- Firewall changes (Fortigate) and troubleshooting security issues.

12/2016 to 03/2021

Technical Support

IBURST

- Troubleshooting internet connectivity.
- Software installation.
- Email setup and troubleshooting.
- Configuring routers.
- Bandwidth purchases and assisting clients with Basic queries e.g.: buying add-on services.

05/2013 to 12/2015

Network Engineer L2

Dimension Data

- Supporting the bank's LAN/WAN infrastructure with Routers and 6500s switches, 4500 with VSS, 3750s, 3760s and 2900 switches.
- Blade Centre switches, IFLex IBM.
- Nexus blade center switches.
- Full redundancy with port aggregation.
- Voice infrastructure and setting up conference facilities with starfish equipment.
- WebEx conferences, the wireless LAN controllers.
- LAPs and security infrastructure with Checkpoint firewalls.
- Cabling (Ethernet and fibre cables).
- Outsourced to SA Reserve Bank

06/2012 to 04/2013

Troubleshooting Engineer

Internet Solutions

- Troubleshooting MPLS /VPN Connectivity.
- BGP Troubleshooting.
- Failover Solutions.
- Dedicated links Routing.
- Firewall troubleshooting (fortigate & Cisco firewalls).

07/2008 to 12/2009

Technical Support Consultant

MWEB Business

- Troubleshooting clients request and offering first time resolution of queries.
- Troubleshooting ADSL, MPLS and Dedicated links.
- Hosting Services (Website / Co-Located & Virtual Servers / Database MySQL & Microsoft / Domains).
- Troubleshooting mail solution (Hosted exchange, Domain mailboxes).
- Monitor and track scheduled network maintenance activities.
- Logging faults with 3rd party vendors (Telkom and Neotel).
- Monitoring clients Links 24/7 to ensure 99.9% up time.
- Troubleshooting and configuring firewalls.
- Troubleshooting of billion and cisco router and adding configurations.

SKILLS

- Troubleshooting connectivity and firewalls
- Switching technologies
- Cisco FTD
- Cisco ASA
- Check Point Firewall
