PROFESSIONAL SUMMARY

Results-driven network and security engineer with over 15 years of experience in firewall management, strategic thinking, and risk assessment. Proven track record of enhancing network infrastructures while ensuring robust security measures and minimal downtime for clients. Expertise in implementing effective solutions that support organizational goals and improve overall network performance.

CERTIFICATES

- CCNP Security
- Cisco ISE
- CCNP R&S
- CCNA DC
- AWS Certified Cloud Practitioner
- AWS Solution Architect
- Fortigate NSE 4 & 7
- ITIL Foundation
- CCIE R&S (written)
- Palo Alto (PCNSA)

WORK EXPERIENCE**NETWORK AND SECURITY ENGINEER** *Aug 2024 - Current**Irdeto*

- Assist in managing broadcast networking and security services, including routers, switches, and firewalls.
- Support design and implementation of network and security infrastructure.
- Conduct security risk assessments and help develop mitigation plans.
- Aid in management of projects aimed at enhancing network and security services.
- Provide ongoing support and monitor systems proactively to reduce downtime.
- Facilitate cooperation with clients and cross-functional teams for effective issue resolution.

- Support root-cause analysis and contribute to strategies for system improvements.
- Participate in 24/7 on-call rotation for prompt incident resolution.
- Assist in conducting risk assessments and developing mitigation plans.
- Aid in policy development.

NETWORK SECURITY SPECIALIST *Aug 2021 - Mar 2024*

Three6Five

- Assisted clients with firewall support and contributed to solution development on firewalls.
- Supported configuration of SSL VPN and IPSec VPN solutions, integrating with Active Directory for UTM features of firewalls.
- Helped implement policies and NAT configurations on Fortinet firewalls, including VDOMs and inter-VDOM routing.
- Troubleshoot connectivity issues from a security perspective on firewalls.
- Managed the addition and removal of VPN users on Juniper firewalls.
- Provided troubleshooting assistance for overall connectivity on MPLS to external VLANs/DMZ.
- Configured and implemented F5 BIG-IP LTM load balancers.
- Supported and troubleshoot Meraki devices.
- Contracted to Vodacom

NETWORK & SECURITY ENGINEER *Apr 2021 - Aug 2021*

BUI

- Deployed and managed Azure networking components, including Virtual Networks (VNETs), Network Security Groups (NSGs), Azure Firewall, VPN Gateways, and ExpressRoute for hybrid cloud connectivity.
- Implemented secure cloud architectures using Azure Load Balancers, Application Gateways (WAF), and peered VNETs, ensuring high availability and compliance with internal security policies.
- Designed, deployed, and supported network infrastructure for internal and external clients, leveraging Cisco switches/routers, Nexus data centre switches, FortiGate, and Palo Alto firewalls.
- Managed Microsoft Azure networking deployments while serving as a Network & Security Consultant within a NETOPS environment.
- Documented network security architecture, change management procedures, and compliance evidence for PCI-DSS / ISO 27001 audits.
- Deployed, configured, and maintained Palo Alto Networks next-generation firewalls (PA-Series) and Panorama, managing security policies across global sites
- Implemented App-ID, User-ID, and Content-ID to enforce granular application control and web filtering, reducing unauthorized

application usage

- Enabled and tuned Threat Prevention, WildFire, and DNS Security, resulting in 99% increase in detected and blocked malware variants.
- Managed SSL/TLS decryption policies for internal traffic, balancing security visibility with privacy exceptions.
- Configured and troubleshot site-to-site IPsec VPNs and GlobalProtect remote access VPN for remote users.
- Used Panorama for centralized logging, policy management, and device group templates across global firewalls.
- Maintained high availability (HA) pairs and performed failover testing to ensure 99.% uptime for security services
- Documented network security architecture, change management procedures, and compliance evidence for PCI-DSS / ISO 27001 audits.

NETWORK SECURITY SPECIALIST *Dec 2016 - Mar 2021*

Three6Five

- Assisted clients with firewall support and configuration solutions.
- Provided SSL VPN and IPSec VPN solutions while integrating with Active Directory.
- Supported VDOMs and implemented inter-VDOM routing and policies on Fortinet firewalls.
- Troubleshot firewall security profiles and connectivity issues.
- Managed user accounts for VPN access on Juniper firewalls.
- Resolved connectivity issues on MPLS to external VLAN/DMZ.
- Configured F5 BIG-IP LTM load balancers.
- Troubleshot Meraki (SD-WAN) issues.
- Contracted to Vodacom

NETWORK ENGINEER L2 *Jan 2016 - Nov 2016*

Dimension Data

- Supported bank's LAN/WAN infrastructure with routers and 6500 switches, 4500 with VSS, 3750s, 3760s, and 2900 switches.
- Assisted in managing Blade Centre switches, including iFlex IBM and Nexus Blade Centre switches.
- Facilitated full redundancy with port aggregation for enhanced network stability.
- Contributed to voice infrastructure setup and conference facilities using Starfish equipment.
- Coordinated WebEx conferences and managed wireless LAN controllers.
- Maintained laps and security infrastructure with Checkpoint firewalls.
- Executed cabling tasks with Ethernet and fibre cables.
- Contracted to SARB

NETWORK ENGINEER May 2013 - Dec 2015*UCS-Solutions*

- Provided technical support for troubleshooting LAN and WAN connections.
- Conducted failover testing to ensure proactive measures were in place.
- Assisted in configuring routers and switches, providing on-site support as needed.
- Served as a third-level support contact, escalating issues from second-line support.
- Managed 6500 switches in core data centre environment, adding VLANs and performing patching.
- Troubleshoot WLAN issues, configuring wireless access points as necessary.
- Facilitated cabling tasks for Ethernet and fibre, replacing media converters for fibre infrastructure.
- Executed emergency failover changes to meet operational requirements.
- Implemented firewall changes using Fortigate, troubleshooting security issues as they arose.

TROUBLESHOOTING ENGINEER Jun 2012 - Apr 2013*Internet Solutions*

- Assisted in troubleshooting MPLS/VPN connectivity issues.
- Provided support for BGP troubleshooting efforts.
- Helped implement failover solutions for enhanced reliability.
- Supported routing for dedicated links.
- Aided in firewall troubleshooting for Fortigate and Cisco firewalls.

TECHNICAL SUPPORT CONSULTANT May 2010 - May 2012*MWEB Business*

- Assisted clients in resolving queries on first contact.
- Supported troubleshooting of ADSL, MPLS, and dedicated links.
- Facilitated hosting services including websites, co-located and virtual servers, MySQL and Microsoft databases, and domains.
- Helped troubleshoot mail solutions for hosted Exchange domain mailboxes.
- Monitored and tracked scheduled network maintenance activities.
- Logged faults with third-party vendors like Telkom and Neotel.
- Monitored client links 24/7 to maintain high uptime.
- Aided in troubleshooting and configuring firewalls.
- Provided troubleshooting support for Billion and Cisco routers and added configurations.

TECHNICAL SUPPORT Jul 2008 - Dec 2009*IBURST*

- Troubleshoot internet connectivity issues for clients.

- Assisted with software installation processes.
- Provided support for email setup and troubleshooting tasks.
- Configured routers to optimise performance.
- Guided clients through bandwidth purchases and basic service queries.

CALL CENTRE AGENT *Oct 2007 - Jul 2008*

CarPhone warehouse

- Assisted customers with broadband troubleshooting.
- Supported users in setting up internet connections.
- Guided individuals through router problem resolutions.
- Helped resolve browsing and synchronisation issues.
- Executed MS-DOS commands including TCP/IP, ipconfig, and Winsock.
- Facilitated email account installations and configurations.
- Talk-talk

EDUCATION

DIPLOMA OF HIGHER EDUCATION: ADVANCED DIPLOMA IN IT - SOFTWARE DEVELOPMENT *Dec 2005*

ICESA, Durban
