- Governance, Risk & Compliance (GRC) – In Progress – ICDFA
- Mimecast Product Certifications – All Levels
- Certified AI-Powered Instructional Design Professional
- Hands-on AI Masterclass (Foundation, Proficiency, Mastery)
- Instructional Design: Foundations & Applications
- AWS Educate: Machine Learning Foundations
- Cisco: Introduction to Cybersecurity
- Microsoft Certified IT Professional

Career Objective

As a Technical Trainer with extensive experience in enterprise learning environments, I have designed and delivered large-scale cybersecurity, SaaS, and cloud training programs tailored to diverse audiences across the EMEA region. My approach emphasizes simplifying complex technical concepts into clear, actionable learning modules, leveraging AI-powered instructional design, blended learning strategies, and advanced LMS platforms to maximize engagement and scalability. I have successfully led onboarding, compliance, phishing awareness, and role-based enablement initiatives, consistently achieving measurable improvements in user readiness, certification rates, and overall security posture. My background in education, training, and development practices, combined with hands-on technical expertise, enables me to create impactful training solutions that accelerate time-to-competency and foster a culture of continuous learning and security awareness within organizations

Work Experience

TECHNICAL TRAINER
Mimecast South Africa (Pty) Ltd
01/2021 – 05/2025

- Delivered tailored product demonstrations and Proofs-of-Concept (PoCs) to showcase Mimecast's cybersecurity solutions, addressing client-specific challenges and aligning solutions with their unique needs.
- Acted as a technical lead for training initiatives, guiding best practices in email security, endpoint protection, and cloud-based cybersecurity solutions.
- Collaborated with sales teams to identify client prospects, customize security solutions, and ensure alignment with organizational goals.
- Responded to RFIs and RFPs, effectively communicating Mimecast's capabilities and aligning solutions with client requirements.
- Educated partners and clients on the latest security technologies, fostering awareness and adoption of cybersecurity best practices through workshops, seminars, and industry events.
- Designed and delivered advanced training programs on email security, phishing awareness, and compliance, resulting in measurable improvements in organizational security posture.
- Built and maintained strong collaborative networks with internal teams and external partners, ensuring alignment and support for learning initiatives.
- Analyzed learning data and client feedback to identify trends, measure impact, and recommend enhancements to training programs and security solutions.
- Supported sales, IT, and customer success teams by delivering technical enablement programs, ensuring seamless adoption of Mimecast's solutions.
- Produced detailed reports on training impact, compliance metrics, and security posture improvements, providing actionable insights for continuous improvement.

Reference
